FlexTech™ Series
Assembly Instructions

For gravity-assisted stretching and decompression

* Specifications may vary from this image and are subject to change without notice.

The EP-550 is shown here. Your actual model may vary.

To download and print Teeter's FlexTech™ instructions, visit the product support page at teeter.com.
Congratulations on your purchase of a Teeter FlexTech™ Series Inversion Table! In order to utilize this product to its fullest extent, it is critical that you follow the assembly instructions, read and fully understand the Owner’s Manual attached to the equipment, and review the Getting Started DVD prior to using your new Teeter Inversion Table.

Teeter Decompression Devices are multiple user, reusable devices for home use, intended to provide traction to the spine while stretching the para-spinal muscle and soft tissues. The devices provide non-powered traction and are meant for use by adults.

Use of FDA-Cleared Teeter Decompression Devices is indicated for the following conditions: back pain, muscle tension, degenerative disc disease, spinal degenerative joint disease, spinal stenosis, herniated disc, spinal curvature due to tight muscles, sciatica, muscle spasm, and facet syndrome.

For step-by-step, 3D interactive instructions, download BILT (a FREE mobile app) to your smartphone to follow along. See Page 5 for instructions on how to download BILT.

To register your product warranty, go to teeter.com/Support/Warranty-Registration.

If you have any questions concerning assembly or if any parts are missing, DO NOT RETURN THE ITEM TO THE STORE OR CONTACT THE RETAILER. Our dedicated customer service experts can help! Contact Teeter Customer Service at 800.847.0143, or via online forms or Live Chat at teeter.com.

Get more from your inversion sessions by downloading the TeeterLink™ app to your phone to track usage and pain levels, get reminders and customized guidance, access support, and more! Scan the code or search TeeterLink in your app store to get started!

BEFORE YOU BEGIN: Review all steps before beginning assembly and read all precautions before using the inversion table. Carefully adhere to the Assembly Instructions and Owner’s Manual to help ensure safety and product integrity.

IMPORTANT SAFETY INSTRUCTIONS
READ ALL INSTRUCTIONS BEFORE USING THE INVERSION TABLE

WARNING

FAILURE TO FOLLOW INSTRUCTIONS AND WARNINGS COULD RESULT IN SERIOUS INJURY OR DEATH.

To reduce the risk of injury:

• Read and understand all the instructions, review all other accompanying documents, and inspect the equipment before using the inversion table. It is your responsibility to familiarize yourself with the proper use of this equipment and the inherent risks of inversion if these instructions are not followed, such as falling on your head or neck, pinching, entrapment, equipment failure, or aggravating a pre-existing medical condition. It is the responsibility of the owner to ensure that all users of the product are fully informed about the proper use of the equipment and all safety precautions.

• DO NOT use until approved by a licensed physician. Inversion is contraindicated in any medical or health condition that may be made more severe by an elevation of blood pressure, intracranial pressure or mechanical stress of the inverted position, or that may impact your ability to operate the equipment. This may include injury or illness, but also the side effects of any drug or supplement (prescribed or over-the-counter). Specific conditions may include, but not be limited to:
  • Any condition, neurological or otherwise, which results in unexplained tingling, weakness or neuropathy, seizure, sleep disorder, lightheadedness, dizziness, disorientation, or fatigue; or impacts strength, mobility, alertness, or cognitive ability;
  • Any brain condition, such as trauma, history of intracranial bleed, history or risk of TIA or stroke, or severe headaches;
  • Any condition of the heart or circulatory system, such as high blood pressure, hypertension, increased risk of stroke, or use of anticoagulants (including high doses of aspirin);
  • Any bone, skeletal or spinal cord condition or injury, such as significant spinal curvature, acutely swollen joints, osteoporosis, fractures, dislocations, medullary pins or surgically implanted orthopedic supports;
  • Any eye, ear, nasal or balance condition, such as trauma, history of retinal detachment, glaucoma, optic hypertension, chronic sinusitis, middle or inner ear disease, motion sickness, or vertigo;
  • Any digestive or internal condition, such as severe acid reflux, hiatal or other hernia, gallbladder or kidney disease;
  • Any condition for which exercise is specifically directed, limited or prohibited by a physician, such as pregnancy, obesity, or recent surgery.

• ALWAYS be certain the Ankle Lock System is properly adjusted and fully engaged, and that your ankles are secure before using the equipment. HEAR, FEEL, SEE and TEST that the Ankle Lock System is snug, close-fitting and secure EVERY TIME you use the equipment.

• ALWAYS wear securely tied lace-up shoes with a flat sole, such as a normal tennis-style shoe.

• DO NOT wear any footwear that could interfere with securing the Ankle Lock System, such as shoes with thick soles, boots, high-tops or any shoe that extends above the anklebone.

• DO NOT use the inversion table until it is adjusted properly for your height and body weight. Improper settings can cause rapid inversion or make returning upright difficult. New users, and users who are physically or mentally compromised, will require the assistance of a spotter. Make sure the equipment is set to your unique user settings prior to each use.

• DO NOT sit up or raise head to return upright. Instead, bend knees and slide your body to the foot-end of the inversion table to change weight distribution. If locked out in full inversion, follow the instructions for releasing from the locked position before returning upright.

• DO NOT continue using the equipment if you feel pain or become light-headed or dizzy while inverting. Immediately return to the upright position for recovery and eventual dismount.

• DO NOT use if you are over 6 ft 6 in (198 cm) or over 300 lbs. (136 kg). Structural failure could occur or head/neck may impact the floor during inversion.

• DO NOT allow children to use this machine. Keep children, bystanders, and pets away from machine while in use. The inversion table is not intended for use by persons with reduced physical, sensory or mental capabilities, unless they are given supervision and instruction concerning use of the machine by a person responsible for their safety.

• DO NOT store the inversion table upright if children are present. Fold and lay the table on the floor. DO NOT store outdoors.

• DO NOT drop or insert any object into any opening. Keep body parts, hair, loose clothing and jewelry clear of all moving parts.

• DO NOT use in any commercial, rental or institutional setting. This product is intended for indoor, home-use only.

• DO NOT operate equipment while under the influence of drugs, alcohol, or medication that may cause drowsiness or disorientation.

• ALWAYS inspect the equipment prior to use. Make sure all fasteners are secure.

• ALWAYS replace defective components immediately and/or keep the equipment out of use until repair.

• ALWAYS position equipment on a level surface and away from water or ledges that could lead to accidental immersion or falls.

• Refer to additional warning notices posted on the equipment. If a product label or Owner’s Manual should become lost, damaged or illegible, contact Customer Service for replacement.

Safety Warning Labels & Product Specifications

Important: Please review all labels and supporting materials before using your inversion table.

This drawing indicates the locations of the warning labels found on your product. If a label is missing, illegible or is removed, contact Teeter Customer Service to request a complimentary replacement label.

Note: Image and labels below not shown at actual size.

Assembled Non-Use Dimensions:
- EP-550: 64.0 (L) x 28.5 (W) x 61.0 in (H) (162.6 x 72.4 x 154.9 cm)
- EP-850: 64.0 (L) x 28.5 (W) x 61.0 in (H) (162.6 x 72.4 x 154.9 cm)
- EP-950: 64.0 (L) x 29.0 (W) x 61.0 in (H) (162.6 x 73.7 x 154.9 cm)

Maximum In-Use Dimensions:
- EP-550: 83.0 (L) x 28.5 (W) x 88.0 in (H) (210.8 x 72.4 x 223.5 cm)
- EP-850: 83.0 (L) x 28.5 (W) x 88.0 in (H) (210.8 x 72.4 x 223.5 cm)
- EP-950: 83.0 (L) x 29.0 (W) x 88.0 in (H) (210.8 x 73.7 x 223.5 cm)

Storage Dimensions:
- EP-550: 20.0 (L) x 28.5 (W) x 70.0 in (H) (50.8 x 72.4 x 177.7 cm)
- EP-850: 20.0 (L) x 28.5 (W) x 70.0 in (H) (50.8 x 72.4 x 177.7 cm)
- EP-950: 20.0 (L) x 29.0 (W) x 70.0 in (H) (50.8 x 73.7 x 177.8 cm)

Weight (approx.):
- EP-550: 70.0 lbs (31.8 kg)
- EP-850: 72.0 lbs (32.7 kg)
- EP-950: 76.9 lbs (34.9 kg)
Before Beginning Assembly

Unpack and Prepare Your Workspace

- If possible, set up the product at or near the space in which you intend to use it to avoid moving it later.
- Unpack all parts and support materials. Set aside packing materials and clear your work area.
- Locate the Hardware Kits, packaged with the manuals. They are labeled to correspond with the assembly process.

- The Getting Started DVD provides step-by-step instruction on how to assemble your product. You may find it helpful to follow along with the DVD by watching it on either your TV or computer. The DVD is divided into the following sections:
  - Assembly - Follow step-by-step instruction on how to assemble your inversion table.
  - User Settings - Personalize your inversion experience by adjusting four customizable settings.
  - Use Instructions - Learn how to test your balance and rotation control, and how to properly invert and return upright.
  - Advanced Stretching & Exercises - Use your Teeter for rotational stretches, sit ups, squats and more!
  - BONUS Healthy Back Classes*
    Get guided instruction on stretches and exercises you can do on your own to help strengthen your back and gain flexibility.
*Not available in French or Spanish.

Making Assembly Even Easier with BILT.

For step-by-step, 3D interactive instructions, download BILT (a FREE mobile app) to your smartphone to follow along. Simply download the BILT app by scanning the QR code below and then search for your model (EP-550, EP-850, EP-950) within the BILT app to get started!
STEP 1

Assemble A-Frame Base & Tri-Grip™ Handles

- Follow these instructions if you have an EP-550 model.
- On a level surface, position the A-Frame so that it is standing upright and the Stability Feet are on the ground.
- Gently push down on the Spreader Arms to ensure they are fully open and in the “locked” position (Figure 1).
- Look for temporary circular assembly assistance labels on the A-Frame. RIGHT, LEFT, FRONT, and REAR indicate your position while using the equipment, not facing it. These labels can be removed easily upon completion of assembly.
- Locate the Tri-Grip™ Handle Assembly Hardware Kit (HK1021).
- Determine the left or right handles, marked with an embossed L / R on the inside of the black plastic part of each handle.
- Align the black plastic part of the corresponding handle (left / right) over the outside edge of the Hinge Plate on the A-Frame (Figure 2).
- Insert and loosely hand-tighten three of the Allen Head bolts through the Hinge Plate into the handle (Figure 3).
- Repeat with other handle. Tighten all fasteners with the Allen Wrench provided, being careful not to over-tighten.
- Proceed to Page 9 for Step 2.

1 - Spreader Arms  2 - Crossbar
STEP 1

Assemble A-Frame Base & Over-EZ™ Handles

- Follow these instructions if you have an EP-850 model.

- On a level surface, position the A-Frame so that it is standing upright and the Stability Feet are on the ground.

- Gently push down on the Spreader Arms to ensure they are fully open and in the “locked” position (Figure 4).

- Look for temporary circular assembly assistance labels on the A-Frame. **RIGHT, LEFT, FRONT, and REAR** indicate your position while using the equipment, not facing it. These labels can be removed easily upon completion of assembly.

- Locate the Over-EZ™ Handle Assembly Hardware Kit (HK1023 for EP-850 Models).

- Determine the left or right handles, marked with an embossed L / R on the inside of the black plastic part of each handle.

- Insert the Double-Threaded Bolts from the inside of the handle and loosely hand-tighten on the outside with the nuts provided (Figure 5). **DO NOT** fully tighten the nuts yet.

- Align and insert the opposite end of the Double-Threaded Bolts into the corresponding holes in the right hinge plate (Figure 5A). Hand-tighten with the nuts on the inside of the hinge plate.

- Use the wrenches provided to tighten the inside and outside sets of nuts. being careful not to over-tighten. (Figure 6 shows the completed assembly)

- Repeat these steps on the other handle.

- Proceed to Page 9 for Step 2.
Assemble A-Frame Base & Large Over-EZ Handles

1. Follow these instructions if you have an EP-950 model.

2. On a level surface, position the A-Frame so that it is standing upright and the Stability Feet are on the ground.

3. Gently push down on the Spreaders to ensure they are fully open and in the “locked” position (Figure 7).

4. Look for temporary circular assembly assistance labels on the A-Frame. RIGHT, LEFT, FRONT, and REAR indicate your position while using the equipment, not facing it. These labels can be removed easily upon completion of assembly.

5. Locate the Large Over-EZ™ Handle & Hinge Cover Assembly Hardware Kit (HK1022).

6. Determine the left or right handles, marked with an embossed L / R on the inside of the black plastic part of each handle.

7. Insert the Double-Threaded Bolts from the inside of the handle and loosely hand-tighten on the outside with the nuts provided (Figure 8). DO NOT fully tighten the nuts yet.

8. Align and insert the opposite end of the Double-Threaded Bolts into the corresponding holes in the hinge plate (Figure 8). Hand-tighten with the nuts on the inside of the hinge plate.

9. Use the wrenches provided to tighten the inside and outside sets of nuts, being careful not to over-tighten.

10. Place the Hinge Plate Cover (marked on the inside) over the outside edge of the handle so that the holes align with the smaller 1/4” bolt holes in the hinge plate. Insert and hand-tighten the Allen-head bolts into the Hinge Plate Cover from the inside of the hinge plate (Figure 9).

11. Tighten the bolts with the 5mm Allen Wrench provided, being careful not to over-tighten.

12. Repeat these steps on the other handle and Hinge Plate Cover.
STEP 2

Assemble Table Bed

- Locate the Table Bed Assembly Hardware Kit (HK1010).

- Place the Table Bed face down on the floor and push down on the Support Beam, so the two holes align evenly with the holes at the base of the Upper Support Arms (Figure 10). You may have to exert extra pressure to ensure that the Support Beam slides over the rubber spacers.

- Insert the two Bolts into the open holes (Figure 11).

- Thread a Washer and Nut onto each Bolt and hand-tighten.

- Using the 6mm Allen Wrench to steady the bolts, tighten the Nuts onto the Bolts with the 10/13mm Open-Ended Wrench.
STEP 3
Assemble Roller Hinges to Table Bed

NOTE: Some models come with Traction Handles pre-assembled to the Roller Hinges. However, the assembly instructions detailed below still apply.

- Familiarize yourself with the 3-Hole Roller Hinge and Cam Lock terms (Figure 12).

![Figure 12: Diagram of Roller Hinge and Cam Lock](image12.jpg)

![Figure 13: Crossbar and A-Frame](image13.jpg)

![Figure 14: Unlock and Lock](image14.jpg)

![Figure 15: Cam Lock](image15.jpg)

![Figure 16: Roller Hinge and Bracket](image16.jpg)

• For ease of assembly, rest the Table Bed against the Crossbar (Figure 13) at the front of the A-Frame.

• On one side of the Table Bed, lift and hold the Cam Lock up all the way to unlock (Figure 14).

• In your other hand, hold one Roller Hinge near the Pivot Pin. With the Pivot Pin facing out (away from the Table Bed), slide the bottom of the Roller Hinge between the Cam Lock and the Bracket. TIP: Make sure that the Cam Lock is completely open when inserting the Roller Hinge, otherwise assembly will be more difficult.

• Engage one of the holes in the Roller Hinge over the Bracket Pin. Figure 16 shows the Roller Hinge installed correctly, with the Bracket Pin engaged in Setting C.

  **NOTE:** Refer to the Owner’s Manual for an explanation of the hole settings. If you are unsure, use Setting C to start.

  • Push down on the Cam Lock (Figure 15) to lock it and secure the Roller Hinge.

  • Repeat on other side. Make sure the Roller Hinges are in the same hole setting on both sides. See also Image A on Page 14 to ensure correct assembly.

**WARNING**
NEVER disassemble the Roller Hinge Pivot Pin.
**STEP 4**

Assemble Table Bed to A-Frame

- Face the front of the A-Frame where the Crossbar is located (Figure 17).

- Grasp both Roller Hinges, right above the Cam Lock, and lift the Table Bed. Allow the top of the Table Bed to rotate toward the floor, so that the back of the Table Bed is now facing you and the top of the Table Bed is in front of the Crossbar (Figure 18).

- Lower each Roller Hinge Pivot Pin into the A-Frame hinge plates, one side at a time (Figure 19). The Self-Locking Hooks will open to allow the Pivot Pin into the Hinge Plate slot, then automatically snap closed over the Pivot Pin.

  **TIP:** You may need to push outward on the Hinge Plate in order for the second Pivot Pin to lock in place.

- Make sure that each Pivot Pin is seated at the base of the slot in the Hinge Plates, and that the Self-Locking Hooks have closed over both Pivot Pins (Figures 19a & 19b).

**WARNING**

Failure of the Self-Locking Hooks to close over both Roller Hinge Pivot Pins is an indication of improper assembly and if not corrected could result in serious injury or death!

- Rotate the Table Bed into the use position (Figure 20). Ensure that it rotates smoothly. See also Image B on Page 14 to ensure correct assembly.

The EP-550 is shown here. Your actual model may vary.
STEP 5
Assemble Main Shaft to Table Bed

- Your model’s Main Shaft may differ from what is shown in the figures, however the assembly instructions remain the same.

- Loosen the De-Rattler Knob on the left side of the Main Shaft Housing.

- Facing the front of the A-Frame, hold the Main Shaft in your left hand with the height markings facing up. Slide the end of the Main Shaft into the Main Shaft Housing (Figure 21), located at the base of the Table Bed.

- With your right hand, pull out the Height-Selector Locking Pin (Figure 22) to allow the Main Shaft to slide in further and release in the desired height setting. Refer to the Owner’s Manual for more information on selecting your height setting.

- The Main Shaft MUST REST against the Crossbar bumper on the A-Frame (Figure 23).

   IMPORTANT: The Crossbar prevents the Table Bed from rotating forward when the user steps on the Ankle Comfort Dial. If the Main Shaft does not rest on the Crossbar bumper as shown in Figure 23, then the Table Bed has been assembled backwards onto the A-Frame.

   This MUST BE CORRECTED before use. See also Image B on Page 14 to ensure correct assembly.

- Test the inversion table by hand for smooth and steady rotation (Figure 24) and ensure that all fasteners are secure.

- Tighten the De-Rattler Knob.
STEP 6
Attach Angle Tether & Head Pillow

Attach Angle Tether

• The tether will come pre-assembled to the A-Frame.

• Unfold the adjustable tether and clip it to the U-Bar on the underside of the Table Bed (Figure 25).

• Slide the buckle to lengthen or shorten the strap depending on your desired maximum angle of inversion.

EZ-Angle Tether Accessory
Some models may come with the EZ-Angle Tether, embroidered with color-coded angle markers at 20° (GREEN), 40° (ORANGE), or 60° (RED). Simply slide the buckle so its center aligns with your desired color setting.

Attach Head Pillow

Attach the Head Pillow by securing the Velcro Straps through the elongated slots in the Table Bed (Figure 26), which allow the pillow to shift with the user when in use. You may also customize the position depending on your preference.
Misassembly Check

WARNING
If your Teeter Inversion Table looks like either of these images, your inversion table has been misassembled and is unfit for use. Improper assembly could result in serious injury or death!

Image A
Go back to Step 3 for instruction.
Demonstrates that the Roller Hinges have been assembled upside down into the Table Bed and must be corrected.

Image B
Go back to Step 4 for instruction.
Demonstrates that the Table Bed has been assembled into the A-Frame backwards so the Main Shaft is not resting on the Crossbar and must be corrected.

For All Models

The EP-550 is shown here. Your actual model may vary.
Before Inverting

**Ensure Owner’s Manual is Attached**

The Owner’s Manual contains important information on how to use your Teeter Inversion Table, including how to personalize the user settings, properly secure and release the Ankle Lock System, and test and adjust the rotation control.

- If not already attached, thread the provided metal chain through the pre-punched hole in the upper corner of the Owner’s Manual.

- Secure the chain to the A-Frame through the designated hole in the Hinge Plate (Figure 28 & 28a). Allow the Owner’s Manual to hang freely on the outside of the A-Frame Spreader Arms so it doesn’t interfere with the rotation of the Table Bed.

**IMPORTANT:** Once attached to the A-Frame, **DO NOT** remove the Owner’s Manual. It should remain permanently attached to your inversion table to serve as a reference for all users in regards to proper adjustment and use of the equipment.

**WARNING**

Read the Owner’s Manual thoroughly before using your Teeter Inversion Table. Improper settings could result in serious injury or death!

**View the Remainder of the DVD**

The Getting Started DVD is a helpful supplement to the Owner’s Manual, with easy-to-follow instructions on user settings, how to invert, storage and maintenance, and even stretching and exercises you can do with your Teeter.
During the period starting with the day of retail purchase and continuing for five (5) years, Teeter extends to the owner a repair and replacement warranty against manufacturing defects in materials, workmanship, fabrics and padding. Teeter will repair or replace any such defect and will pay the costs of all parts, labor and transportation. If a repair or replacement is not commercially practical or cannot timely be made, then Teeter will, at the original Purchaser’s option, replace with a comparable product or refund the purchase price.

Handling and transportation costs related to product warranty service only are covered by this warranty. This warranty does not cover damage resulting from improper handling, assembly, or installation, repairs made by others, accident, misuse, or abuse. Under no circumstances shall Teeter, or any other party involved in the sale of this product, have any liability for incidental or consequential damage arising from breach of an express or implied warranty on any Teeter product.

EXCEPT AS SET FORTH ABOVE, NO WARRANTY IS GIVEN WITH RESPECT TO ANY TEETER PRODUCT, AND ALL EXPRESS WARRANTIES ARE DISCLAIMED. This warranty shall be governed by the laws of the State of Washington, USA. To the extent this warranty is found not to be enforceable, it shall be deemed revised to the extent necessary to make it enforceable. This warranty and any controversy or claim arising out of this warranty or its interpretation shall be governed by the laws of the State of Washington, USA. Any controversy or claim arising out of or relating to this warranty, its interpretation, or any alleged breach thereof, which cannot be amicably settled between Teeter and the owner within sixty (60) days of written notice by the aggrieved party to the other, shall be finally settled by arbitration submitted to three (3) arbitrators selected from the panels of the arbitrators of the American Arbitration Association located closest to Teeter’s principal place of business.

Some states do not allow the exclusion of incidental or consequential damage from a warranty, so the above limitation or exclusion may not apply to you. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which may vary from state to state. This warranty is completely transferable to any and all future owners of this product, provided no alterations have been made to the product.

HOW TO SUBMIT YOUR REGISTRATION:

Step 1
Fill out this information for your own records.

Step 2
Go online to teeter.com to register your warranty.

If you are unable to go online, you can request a warranty card to be mailed to you by calling Customer Service at 800-847-0143. Please DO NOT mail this to Teeter.
If you have any trouble assembling the equipment, or questions about its use, please contact customer service.

**USA:** 800-847-0143 or info@teeter.com  
**International:** info@teeterintl.com
